Hi Paula and Carol,

Attached are a few more documents that might be of interest.

Also, doc ID 1062217 might be of interest. It is a packet of documents that is 12MB and too large to email. There is duplicate info in that PDF but it looked to me like there was some new information.

I also attached an index of all correspondence between 01/01/1985 and 12/31/1996. I hid all of the correspondence that was not authored by EPA. To see those entries, highlight the entire worksheet, right-click and click on unhide.

Gladstone Water Treatment Plant

American tunnel

State of Colorado water discharge permit

Sunnyside gold corporation

Paul Osborne, EPA Hydrogeologist

EPA comments on Colorado water quality control division (CDPHE) permit or consent decree with Sunnyside gold corporation

Letters from Max Dodson to State

Installation of 3 bulkheads in the American tunnel – between 1996 & 2002 so the time in question as to EPA's comments on the bulkheads would be prior to 1996.

Time frame for most of this would be ~1985 – 1995 roughly – I’m sending you a detailed timeline titled “Gladstone Area Mine Event Timeline” I’ve highlighted in yellow a some of the events that would be significant in terms of what we are searching for.
